

Ankul Verma

FULL STACK DEVELOPER | MERN STACK & NEXT.JS

Lucknow, India • +91 8081883230 • ankulvofficial@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on apprenticeship experience building responsive, API-driven web applications using the MERN stack and Next.js. Holds a B.Tech in Computer Science & Engineering with specialization in Data Science & AI. Adept at creating modular UI components, optimizing REST APIs, managing database workflows, containerizing applications, and leveraging modern AI-assisted development tools (Cursor AI, Copilot) for accelerated, production-ready coding.

TECHNICAL SKILLS

Languages:	C++, JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend:	React.js, Next.js, Redux Toolkit, Context API, Tailwind CSS, Bootstrap
Backend:	Node.js, Express.js, RESTful APIs, JWT Authentication
Databases:	MongoDB, PostgreSQL
Cloud & Tools:	Docker, Vercel, Render, AWS (S3/EC2 basics), Git, GitHub, Postman, Webpack, Vite
Modern AI Workflows:	Cursor AI, GitHub Copilot, Gemini / OpenAI API Integration

WORK EXPERIENCE

Techpile Technology Pvt. Ltd.

7 Months Apprenticeship | Lucknow, India

Full Stack Developer Apprentice

- Engineered dynamic, highly responsive React UI components integrated with Tailwind CSS for seamless user experience.
- Developed dynamic RESTful backend APIs using Node.js and Express to handle application state, user routing, and data validation.
- Executed CRUD operations and structured MongoDB database queries, ensuring optimal data retrieval speed and schema integrity.
- Collaborated using Git and GitHub for version control, code management, and structured daily development sprints.

FEATURED PROJECTS

Zerodha Trading Platform Clone

MERN Stack, React, Express, Node.js, MongoDB

Live Demo: <https://zerodha-frontend-fwjs.onrender.com> | GitHub: github.com/ankulverma04

- Architected a full-stack financial trading dashboard UI using React, Context API, and modular CSS components.
- Integrated backend routes via Node.js/Express to handle mock stock market feeds and user portfolio workflows.
- Applied robust state management and mobile-responsive layout patterns to ensure cross-device consistency.

Developer Portfolio Website

React, Tailwind CSS, Vercel

GitHub: github.com/ankulverma04

- Built an interactive showcase platform featuring modern UI components, smooth navigation, and dark/light mode functionality.
- Implemented reusable React component architecture to simplify maintenance and scale structural layout efficiently.

EDUCATION

B.Tech in Computer Science & Engineering (DS + AI) — Shri Ramswaroop Memorial University (CGPA: 6.43) 2022 – 2025

Diploma in Computer Science & Engineering — Shri Ramswaroop Memorial University (CGPA: 6.17) 2019 – 2022
